

Variable Name	Description	Potential Responses
Year	Integer variable representing the year (includes years 1971-2021)	1971, 2003, 2021
Atlantic_Hurricane_Days	Float variable representing the number of days a hurricane was present over the Atlantic Ocean	28.75, 10.0, 49.75
Pacific_Hurricane_Days	Float variable representing the number of days a hurricane was present over the Pacific Ocean	38.5, 5.25, 21.5
Total_Hurricane_Days	Float variable representing the number of days a hurricane was present over the Atlantic and Pacific Oceans	67.25, 71.0, 49.25
CO2_emissions	Float variable representing the world CO2 emissions	15502787000.0, 24330945000.0
Population	Integer variable representing the world's population	3920805030, 7954448405
CSIRO_Adjusted_SeaLevel_Inch	Float variable measured in inches representing amount the sea level has increased since 1880	4.881889759, 9.594329444
Surface_Temperature_Change	Float variable representing change in the Earth's surface temperature over time	-0.093, 0.728, 1.711
Surface_SeaTemp_Annual_Anomaly	Float variable representing the change in the Earth's sea surface temperature over time	-0.519, 0.41, 0.858
